ABHISHEK KUMAR

To work in an organization which provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization.

Education

Bachelor of Computer Application

Shri Narayan Singh college Motihari
Scored 72.23% during academics.

Senior Secondary School

Shri Anugrah Narayan Singh College Motihari(Bihar)
Scored 69% during academics.

Secondary School

Shri Rajaram High School Turkaulia(Bihar)
Scored 56% during academics.

Projects

Project Name: - Daimond Price Prediction
OS: Windows
Language: - Python, Machine Learnig
Project Details:-

➢ Developed a machine learning model to predict diamond prices using features such as carat, cut, colour, clarity, and dimensions. Conducted data preprocessing, feature engineering, and exploratory data analysis (EDA) to understand trends. Implemented regression algorithms like Linear Regression and Decision Trees to achieve high prediction accuracy. Evaluated model performance using metrics such as RMSE and R-squared. Created visualizations for insights and presented findings.Dragging components of ML, from right side of the screen and

Activities

Volunteering experience of events like induction program for fresher/ college events. Part of organising member of my college fest. Project Leader of tech fest organized by University.

Certifications

C

C++

HTML from Solo Learing.
